

# COMING TO YOUR CHILD'S ELEMENTARY SCHOOL OCTOBER 2009!

**FLU-FREE SCHOOLS**<sup>SM</sup>  
Keeping Students & Teachers Healthy and in School

 Public Health Services and Academic Clinics are pleased to offer you an easy and affordable way for your child to receive their seasonal flu vaccine at school this year!

 Flu-Free Schools uses nasal-mist vaccine with NO NEEDLES.

 The program is available to students, faculty and staff to help reduce days missed from school and work.

 Vaccines are given by medical professionals at on-site clinics in participating elementary schools.

**Look for more information about  
FLU-FREE SCHOOLS from your school soon!**

*"All children age 6 months through 18 years should receive annual influenza vaccination ..."*  
-The Center for Disease Control and Prevention (CDC)  
*Seasonal influenza vaccine does not include pandemic H1N1 vaccine.*
